

If you were in charge where would you spend the money?

After the Spending Review on 20 October all Kent Adult Social Services, like most groups, are expecting cuts in their budgets. Which means we have some difficult decisions to make. If you are a service user or a member of the public we know you will have a view on what the priorities should be – come along to our event to give us your ideas of how we can share the responsibility and plan services for the future.
